Success by 6®

A Community Impact Initiative of United Way of Lane County

Help make the first years count! We each have the potential to positively influence a child's life. What happens today will affect them, and our entire community, for the rest of their lives.

Success By 6® would like to share this message, and the research behind it, with groups of all sizes and interests.

Research shows that 90% of brain growth occurs before a child enters kindergarten. During these years a child is developing emotionally, socially and psychologically. Success By 6® speakers will share information with you about how a child's brain develops during these critical years, how early brain development affects you, and what you can do to help every child be safe, healthy and prepared to learn.

SUCCESS BY 6® WILL BE OF INTEREST TO:

CIVIC GROUPS & POLICY MAKERS

Rotarians, City Clubs, Civic Groups and Elected Officials – you have the networks and influence to affect the future in an immediate and visible way. Learn how a small investment early in a child's life can bring substantial future rewards by increasing the effectiveness of our schools and reducing the demands on our criminal justice system.

BUSINESS LEADERS

Children are your future employees and customers. There are many actions you can take to strengthen your community and at the same time support your workforce and customer base.

PARENTS

There are countless simple things you can do every day to help your child realize their fullest potential. It's as easy as how you show affection, use the power of your touch, and help your little one experience the world around them.

Contact Eden Cronk, Manager, Success By 6® at 741-6000 x101 or email at ecronk@unitedwaylane.org to arrange for a speaker to visit you.

Success By 6® Mission: Ensuring our children are safe, healthy, cherished, and prepared to enter school ready to learn. www.cherisheverychild.org.
